ALLAN CLAYTON

M.Arch (Professional) · Wellington, New Zealand
allanfclayton@gmail.com · allanclayton.nz

Curriculum vitae

I hold an M.Arch (Professional) and have spent more than a decade delivering architectural projects in a Wellington practice. That foundation now supports work across architecture, computational design, visual development and interactive experience.

Professional experience

March 2013–present

Architectural Designer
Geoff Fletcher Architects

Work across the full lifecycle of a project: early design and documentation, building consent, consultant coordination, and on-site management through construction.

A small-practice structure puts design, drawing, consultant liaison, client management and site delivery on the same desk.

Project range spans high-end residential, multi-unit residential, infill subdivisions, and additions and alterations, much of it on the steep sites typical of Wellington.

Education

2015

M.Arch (Professional)
Victoria University of Wellington

Selected exhibitions

24–26 October 2025

Paparahi — 50th Anniversary of the Faculty of Architecture and Design Innovation
Te Herenga Waka—Victoria University of Wellington, Wellington

Sky Frame House selected for exhibition.

4 September 2024–26 January 2025

Art of Punk
Francisco Carolinum, Linz, Austria

Participating artist in an international museum group exhibition.

4–27 July 2024

The Mongoose and the Snake
Jhana Millers Gallery, Wellington

Artwork created in collaboration with two others.

Volunteering

2026

Volunteer

Futuna Chapel Trust

Volunteer support for the Trust, including proposals for visitor interpretation and a structured digital archive.

2026

Website maintainer and Facebook group administrator

Onslow Historical Society

Maintenance of the Society's website and administration of its Facebook group.

Tools and workflows

Spatial and visual development

Rhino, Blender and Adobe tools for concept development, modelling and visualisation.

Computational and physical production

Grasshopper, 3D-print preparation, model making and cast-object development.

Architectural delivery

Design development, documentation, consultant coordination and project delivery using Revit.
